

IOS+ Operator Trading Workspace

An IRESS Market Technology Solution

The Operator Trading Workspace (OTW) is a pre-defined workspace in IOS+, designed specifically for fast order entry, to easily process high volumes of orders.

Building on the IOS+ Operator Trading System (OTS), OTW is next generation development. Using keypad hotkeys or the mouse, users can quickly access market information and trading functions.

Highly configurable and totally integrated with the IRESS platform, users can customise OTW order entry, and the displays of order prompts and authorization alerts.

OTW order entry leverages the IRESS Best Market Router (BMR) to optimise order execution across multiple venues with minimal time to market.

OTW Workspace

The OTW workspace is comprised of selected IRESS and IOS+ commands, with a pre-defined size and lay out for optimum information display and order processing.

IOS+ ships with a choice of default OTW workspace layouts depending on your screen resolution and monitor size.

Select the menu path **File > Open Workspace Layout** to open an OTW workspace.

Requirements

Software

IOS+ has a minimum IRESS front end version requirement and a recommended Windows operating system.

This will change depending on the version of IOS+ you have installed.

Hardware

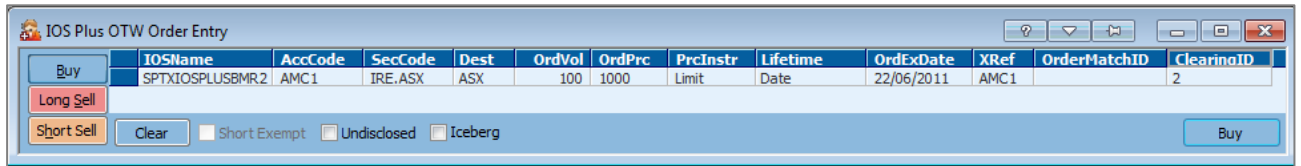

IOS+ is a performance-driven system that has recommended CPU, disk space and memory requirements to run optimally.

Specifically, OTW has been designed to take advantage of more powerful technology, and has minimum monitor and screen resolution requirements to perform well.

Please contact your IRESS Account Executive for your specific software and hardware requirements.

OTW Order Entry

The OTW Order Entry dialog box is compact and configurable. Use the mouse or specialised shortcut keys to rapidly process orders.

OTW screen layout

For best results, set your screen resolution to 1280 x 1024, and run IRESS maximised.

Need more information?

To find out more about the Operator Trading Workspace in IOS+ please contact your IRESS Account Executive.
