

IRESS MOBILE IPHONE

An IRESS Financial Markets Solution

IRESS MOBILE FOR IPHONE IS A BROWSER-BASED EQUITY INFORMATION AND TRADING TOOL, DELIVERING REAL-TIME MARKET DATA ON EQUITIES AND DERIVATIVES.

IRESS Mobile is available to clients with a valid IRESS account, with IRESS Mobile login enabled.

FEATURES

IRESS Mobile for iPhone offers:

- Security pricing and important security information, including security charting
- Seamless trading via the sophisticated order management system of the IRESS Order System (IOS)
- Easy access to trade status and cash holdings
- Up-to-date company and market news.

FUNCTIONS

A simple suite of functions keep you in touch with the markets, your trading activity and your portfolio.

- [Watchlist](#)
- [Depth](#)
- [Security Detail](#)
- [News](#)
- [Create Orders](#)
- [Order Pad](#)
- [Holdings](#)

This factsheet also contains details on:

- [Logging in to IRESS Mobile](#)
- [IRESS Mobile Support](#)

“Real-time market data and trading tools for equity and derivative traders.”

IRESS MOBILE IPHONE

WATCHLIST

A watchlist displays live pricing information for a list of securities, indices and currencies.

Watchlists are associated with your webIRESS login. Custom watchlists that you create in webIRESS are available on your iPhone. Similarly, changes made to watchlists in IRESS Mobile are reflected in webIRESS the next time you log in.

Security	Last	Change	% Change	Action
XAO.ASX	4547.2	+11.10	0.24%	>
WOW.ASX R	2836	0.00	0.00%	>
BHP.ASX R	3825	+41.00	1.08%	>
AUDUSD.FX	0.8626	+0.00	0.01%	>
EURAUD.FX	1.697	+0.00	0.08%	>
XTJ.ASX	1085.3	-46.40	-4.10%	>
SGT.ASX	258	0.00	0.00%	>

DEPTH

The Depth screen displays pricing information for a specified security, and lists the top five bids and asks in the market for that security.

The information available includes the price the traders want to trade at and the corresponding volume to be purchased or sold.

You can trade from this screen.

LAYOUT

The Depth screen displays two levels of information:

- **Quote** - Live pricing information for the security.
- **Depth** - The top five bids and asks in the market for the security, including the volume, price and number of orders at each price level.

Last	+/-	%	Volume	Match	High	Low
835	-14	-1.65	372,856	0	856	833

2	4589	830	5	841	1589	1

IRESS MOBILE IPHONE

SECURITY DETAIL

Security detail lists basic information about a company sourced from the company's current exchange information. It also displays a chart for the security.

You can trade from this screen.

CHART

There are four chart frequencies:

- **1 Day** - intraday (Tick) chart for the security for the current day.
- **1 Month** - charts the daily close price for the past 30 days.
- **1 Year** - charts the daily close price for the past 12 months.
- **5 Years** - charts the weekly close price for the past 5 years.

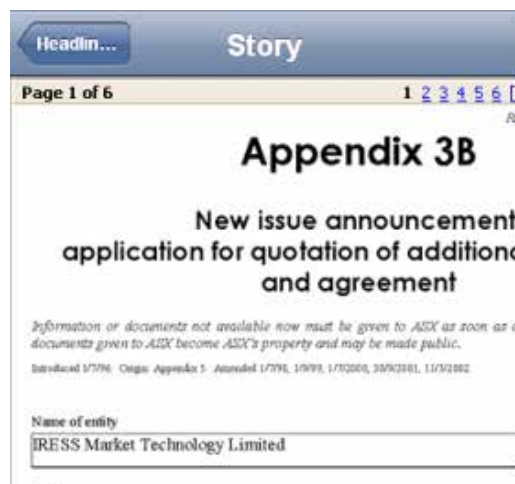

“Charts expand to fit the screen when the iPhone is rotated to landscape orientation.”

NEWS

The News screen lists live company reports and general world news. The news announcements display as headlines, for which you can display the underlying story or document.

You can filter the news headlines for a selected security.

Announcements are available for all news vendors you subscribe to. For information about available vendors, contact IRESS.

IRESS MOBILE IPHONE

TRADING

To access to this functionality, you must have trading enabled on your account. For more information, contact your broker.

CREATE AN ORDER

Create orders by simply tapping Buy or Sell on the Security Detail or Depth screen.

To modify or delete an order, simply tap it to display a menu of options.

ORDER ATTRIBUTES

PRICE TYPE

- **Best** - Send the order at the highest buy (bid) price in the market depth at the time the order is created.
- **Limit** - Send the order at the price specified. The price specified is the maximum price for buys and the minimum price for sells. The order trades at the best price available.
- **Market** - Send the order to trade at any price, starting from the lowest sell (ask) price in the market or the highest buy (bid) price in the market, until the volume is fully traded or the remaining volume is cancelled.
- **Market to Limit** - Send the order at the lowest sell (ask) price in the market depth or the highest buy (bid) price at the time the order is created. The order will trade immediately.
- **End of Day** - The order will remain in the market until the end of the day. This is the default setting when creating new orders.

LIFETIME

- **Fill and Kill** - The order will trade immediately at the specified price. Any remaining volume of the order which was not filled will be withdrawn (killed). If no order exists on the opposite side of the market when the order is created, the order will fail.
- **Fill or Kill** - The order is withdrawn (killed) if the total order volume cannot be traded immediately.
- **Good til Cancel** - The order will remain in the market for the maximum amount of time allowed for the security type.

IRESS MOBILE IPHONE

HOLDINGS

To access to this functionality, you must have trading enabled on your account. For more information, contact your broker.

The Holdings screen displays the current holdings and the cash position for each trading account. This is a view only screen.

LAYOUT

The Holdings screen displays two levels of information:

- **Summary** – The net cash position for the selected account.
- **Holdings** – A list of the securities held in the portfolio, with details of the current days trading.

Summary					
Cost Value	174,031	Profit/Loss	16,387	9.42%	
Mkt Value	190,418	P/L(Today)	1,698	0.89%	
Net Cash	-111,025	Ann Divs	6,180	3.25%	
Total Value	79,393	Gross Frank	8,647	4.54%	
GLV	0	InitialMargin	0		
Free Equity	0				

Code	Last	Vol	DayGain	%	MktVal
AMP.ASX	619	4500	-45.00	-0.16	27855.00
BHP.ASX	3825	4250	1742.50	1.08	162562.50

LOG IN

Before you can log into IRESS Mobile for iPhone, you need to ensure that Java Script and Cookies are enabled.

ENABLE JAVA SCRIPT AND COOKIES

- 1 Tap **Settings**  on the home screen.
- 2 Tap **Safari**.
- 3 Ensure that **JavaScript** and **Accept Cookies** are turned on.

LOG IN TO IRESS MOBILE FOR IPHONE

- 1 Open the Safari browser.
- 2 Tap the address field, and then type the following web address: <https://web.iress.com.au/iPhone>
- 3 Tap **Go**. The **Login** screen displays.
- 4 Type your webIRESS username and password. The Username is in the format 'name@company'.
- 5 Tap **Login**.

Speed of data loading and overall performance depends on your carrier.

CREATE A SHORTCUT ON THE HOME SCREEN

- 1 Open the Safari browser.
- 2 Navigate to the IRESS Mobile login screen.
- 3 Tap the  symbol at the bottom of the iPhone screen.
- 4 Select **Add to Home Screen**. The IRESS icon displays on your home screen.
